

Cleaning Instructions

Some cleaning agents that should be avoided because they can damage the metal finish, or scratch the glass of the enclosure include:

- Vinegar or vinegar based products
- Abrasive or soft abrasive powders and liquids
- Bleach or bleach based products
- Steel or Teßon pads

Using a towel or a squeegee to wipe down the glass after every use provides the best results for a long-lasting shower enclosure.

We also offer Endure Shield.

EnduroShield *Makes Cleaning a Breeze*

EnduroShield® is a revolutionary, simple to apply, invisible coating that repels water, soap scum & grime, allowing you easier cleaning, less often.

- ✓ **Makes cleaning a breeze**
 - A regular wipe over with a microfiber cloth is all it takes, no more scrubbing
- ✓ **'Once only' application**
 - Keeps surfaces looking brand new
- ✓ **Helps reduce the build-up of mould and harmful bacteria**
 - Promotes a germ free environment
- ✓ **Superior protection**
 - Against the corrosive effects of soap scum, dirt, grime, lime scale, salt, chemicals and hard water
- ✓ **Reduces cleaning time**
 - By up to 90%
- ✓ **10 year limited warranty**
 - On new glass (professional & factory applications)

Glass Cleaner without ammonia to clean your enclosure because it is a non-abrasive cleaner.
